2026

GATA – GERMAN AMERICAN TRADE ASSOCIATION

MISSION STATEMENT

The German American Trade Association (GATA) is a not-for-profit organization that was formed in 2003 by a group of German Industry Associations. GATA's objective is to provide comprehensive risk management protection for German-Speaking companies with existing U.S. business and to facilitate entry to the U.S. market for newcomers.

EXECUTIVE MANAGEMENT MEETINGS

Particularly in the USA, it is mandatory with regard to liability that employees who hold officer or director positions at the US subsidiary update their specific knowledge of U.S. management at regular intervals. In a very concise manner, GATA provides information about the current framework and obligations of the U.S. subsidiary, and corporate risk management subjects including all liability-relevant topics of the U.S. business and its latest developments in its one-day Executive Management Meetings.

(For companies considering entering the US market, we recommend a visit to the U.S. Entry Meeting the day before).
For further details, please refer to the agenda or the website www.american-trade.org.

EVENT DETAILS & DATES

The events are limited to small groups of 20-40 people and are held in German.

All speakers have years of experience in cross-border transactions. For the important issues of liability and corporate risk management, specialized German-Speaking attorneys from the US are presenting the relevant topics.

COLOGNE
